

# From the Experts Parent Reflection

## Bennett Lieberman

- Bennett Lieberman mentions that, "an entire generation of teenagers...feels like they're apart from the... American Experience." On what do you think he bases his concerns? Do you share his concerns? Why or why not?
- Do you believe that your child is engaged in school as well as you could expect? If so why? If not, why not?
- To what do you attribute your child's success in school? If you do not believe your child is successful in school, what impediments do you attribute to their school failure?
- Do you believe that all students can succeed in school if given a reasonable opportunity to do well? How can you advocate for a greater opportunity for all students?
- Do you think schools could be structured differently to engage more students?
