

From the Experts Parent Reflection

Lester W. Young, Jr. Ed. D.

- What is the national dialog that Lester W. Young is discussing? How do you discuss with your child issues surrounding young males and people of color?
- Are you concerned about having conversations with your child about ethnic and racial divisions that exist in this country? What biases do you need to think about before having a conversation with your child?
- Are the experiences of students depicted in the Defining US videos similar or different than you expected? Why or why not? How will these videos help you have conversations with your child?
- Do you believe that your community needs greater dialog as Dr. Young indicated? Why or why not? How could you start such conversations?
